## Communication from RI SOUTH ASIA OFFICE

Dear Rotarians,

We would like to let you know that South Asia Office of Rotary International, currently located at Thapar House, Janpath is moving to its new address effective April 16, 2018. The new address is as follows:

Rotary International South Asia Office

Pullman/Novotel Commercial Tower, First Floor, Asset No. 2, Hospitality District

Aerocity (Near IGI Airport) New Delhi 110037, India

+91-11-42250101 to 105

We will be operating from our current office premises till Friday, 13 April 2018 and will commence operations from our new office premise at Aerocity effective Monday, 16 April 2018. Please note all our contact details including landline numbers, email addresses and fax numbers will remain unchanged after the transition to the new office.

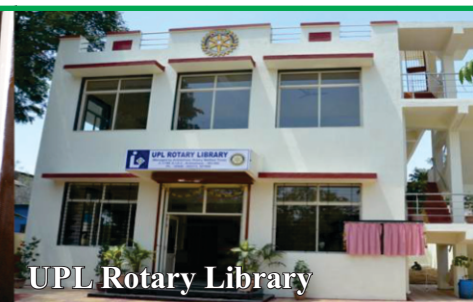

As we make this shift, from 13 to 16 April, there might be some connectivity issues due to reinstallation of landline connections at our new office premises as the service providers may take some additional time in installing connections at the new office premises which is a high security zone due to proximity to the airport. Therefore, we would appreciate your patience if there is slight delay in responding to your queries, as we settle down at our new location.

You will be pleased to know that the new location is very near the Delhi Airport (Terminal 1D, 2 and Terminal 3), with various hotels nearby that you may like to book in advance for your future planned visits to the South Asia Office. You can also avail discounts that are being offered by some of these hotels through "Rotary Global Rewards".

I am happy to share that the new office will have a dedicated meeting room (35 seating capacity) exclusively for Rotarians for their meetings/workshops. We will shortly inform you of the process for reserving your meeting room. Additionally, a dedicated corner 'The Rotarian Tech Center' with internet connectivity will provide visiting Rotarians a facility to access "My Rotary" accounts and other associated applications through RI website [www.rotary.org](http://www.rotary.org) and can also be used to pay membership dues and/or contribute to Rotary Foundation (India) using online tools.

We heartily invite you and your club members to visit us at the new office whenever you plan your next visit to the Capital.

With warm regards,  
Rajeev Ranjan  
Head-South Asia  
Tel +91-11-42250115

### Congrats

PP & PDC Meera Panjwani currently is in Australia to attend Iner-wheel Triennial convention

Angiras shukla registered for R I Convection Toronto , Canada . we wish him all the best

## R.I. Presidential message

**Ian H.S. Riseley**

**President 2017-18 April 2018**

*At the 1990 Rotary International Convention in Portland, Oregon, then President-elect Paulo Costa told the gathered Rotarians, "The hour has come for Rotary to raise its voice, to claim its leadership, and to rouse all Rotarians to an honorable crusade to protect our natural resources." He declared a Rotary initiative to "Preserve Planet Earth," asking Rotarians to make environmental issues part of their service agenda: to plant trees, to work to keep our air and water clean, and to protect the planet for future generations.*

*President Costa asked that one tree be planted for each of the 1.1 million members that Rotary had at the time. We Rotarians, as is our wont, did better, planting nearly 35 million trees by the end of the Rotary year. Many of those trees are likely still flourishing today, absorbing carbon from the environment, releasing oxygen, cooling the air, improving soil quality, providing habitat and food for birds, animals, and insects, and yielding a host of other benefits. Unfortunately, while those trees have kept on doing good for the environment, Rotary as a whole has not carried its environmental commitment forward.*

*That is why, at the start of this year, I followed Paulo Costa's example and asked Rotary to plant at least one tree for every Rotary member. My goal was to achieve a good beyond the considerable benefits that those 1.2 million (or more!) trees would themselves bring. It is my hope that by planting trees, Rotarians will renew their interest in, and attention to, an issue that we must put back on the Rotary agenda: the state of our planet.*

*Environmental issues are deeply entwined in every one of our areas of focus and cannot be dismissed as not Rotary's concern. Pollution is affecting health across the globe: More than 80 percent of people in urban areas breathe unsafe air, a number that rises to 98 percent in low- and middle-income countries. If current trends continue, by 2050 the oceans are expected to contain more plastics by weight than fish. And rising temperatures are well-documented: Global annual average temperatures increased by about 2 degrees F (1.1 degrees C) from 1880 through 2015. That this change was caused by humans is not a subject of scientific debate, nor is the likelihood of vast economic and human disruption if the trend continues unchecked. The need for action is greater than ever – and so is our ability to have a real impact.*

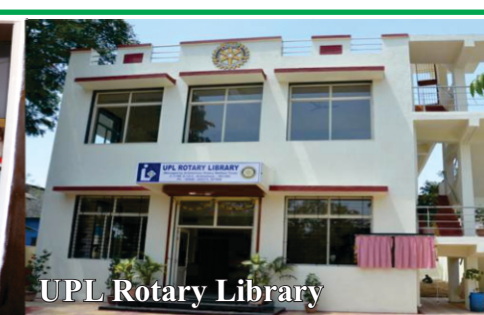

*As past UN Secretary-General Ban Ki-moon put it, "There can be no Plan B, because there is no Planet B." Our planet belongs to all of us, and to our children, and to their children. It is for all of us to protect, and for all of us in Rotary to make a difference.*

## Let's have zero tolerance for corrupt practices

TRF Trustee Elect Gulam Vahanvaty, RID C Basker and EMGA Ashok Panjwani.

At the Disha conference, Trustee Elect Gulam Vahanvaty expressed grave concern over a mere handful of Rotarians sully the image of Rotary in India by indulging in corrupt practices. He said Trustee Chair Elect Ron Burton had set an ambitious goal of \$380 million for TRF next year. And in this goal, a lot was expected from India. "TRF has always counted on us and we have responded willingly; last year we were No 2 in giving. With so much to hold our heads high, why should we allow just a handful of Rotarians to give us a bad name?"

He said that on the last day of the International Assembly held in San Diego, when the DGEs were addressed by senior leaders such as PRIP and TRF Trustee K R Ravindran, Director

Basker, Trustee Sushil Gupta and himself, "what was shared was disturbing and I was extremely upset and I know many of you are also upset because you later spoke to me. I asked myself how many Rotarians are there who do such things that causes disrepute to us... 20, 30, 40? Even if it is 40, when you take it against a conservative figure of 1.4 lakh Rotarians in India, the percentage is a mere 0.003 per cent! And we allow this minuscule number to bring us into disrepute. You are tomorrow's leadership; let us buckle up and not allow anyone to sully the name of Indians in TRF."

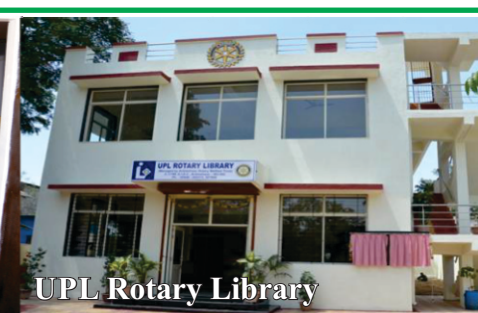

He added: "We must have zero tolerance not because the Trustees demand this of us, but because all of us will not tolerate questionable practices. We owe it to ourselves and our donors." ■

## SRICT NEWS

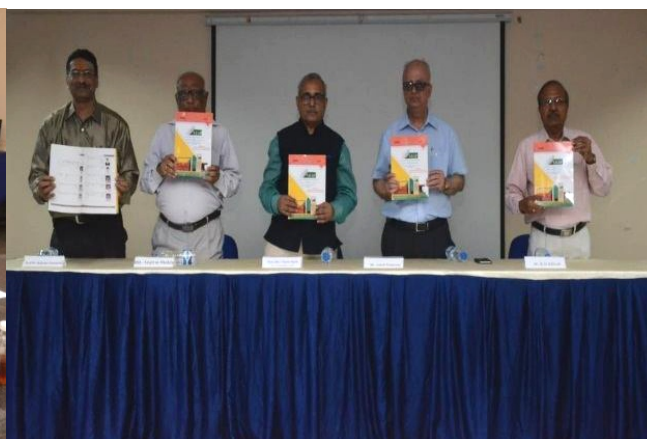

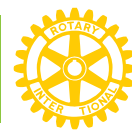

### Visit of GTU Vice Chancellor

Prof. (Dr.) Navin Sheth, Honorable Vice Chancellor of GTU visited SRICT on 03<sup>rd</sup> March 18. During his visit Dr. Navin Sheth inaugurated UPL hostel complex constructed in the same campus. Vice Chairman ARES, Rtn Ashok Panjwani, Secretary Advocate Angiras Shukla, Treasurer Rtn. Kishore Surti, Trustee members Dr. P.N Parameshwaran, Mr. B.D. Dalwadi, Rotary Club Ankleshwar President RD. Mane, Secretary Jignesh Patel, Principal SRICT Dr. Kalyana K Sundaram, Vice Principal Dr. Snehal Lokhandwala, other faculty members, staff and students were present during the function. All facilities like furniture, attached bathrooms, washing machines, TV Set, Table-Tennis, gym, transportation and nutritious food are made available for the inmates. A fund of around 12 crores is allotted by UPL limited for the completion of the estimated complex of 6 floors.

During the visit Dr. Navin Sheth also unveiled LEAP, a progress report of SRICT's achievements of the past six years. Dr. Sheth visited laboratories, library and also interacted with the faculty members and shared his expertise in the fields of education, technology and research. He also motivated them towards innovative and challenging research and filing of patents.

**Expert Lecture**

Expert lecture was organized on 27<sup>th</sup> March 2018 for students of 8<sup>th</sup> semester EST Department and Mr. Vasant Kothalkar (EHS Head) was invited as an expert to deliver lecture on Waste Management Techniques from Andheri, Mumbai. Students learned various techniques through different videos and different ways of solid waste management.

**Industrial Visits**

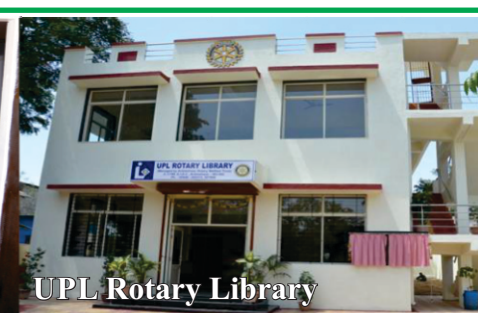

Students of semester 6, Environmental Science & Technology visited Nitrex Ltd on 24<sup>th</sup> March, 2018. Nitrex manufacturing plant at Zaghadiya, Gujarat, has successfully obtained the Establishment Inspection Report from the USFDA. During the visit, students were given presentations on ETP plant and safety measures followed in industries and storage of raw materials. Primary, secondary and tertiary treatments were explained at the ETP plant. The visit was coordinated by Ms. Janki Tailor, Assistant Professor and Mr. Sagar Bhatt, Lab Assistant in Environmental science and technology department.

Students of 6<sup>th</sup> Sem EST visited the drug firm Alkem Labs Ltd at Mandva on 21<sup>st</sup> March, 2018. It is a leading Indian pharmaceutical company with global operations, engaged in the development, manufacture and sale of pharmaceutical and nutraceutical products. The visit was co-ordinated by Ms. Anjali Nair, Assistant Professor and Mr. Vicky Kokani, Lab Assistant in Environmental science and technology department.

### **PTM meeting conducted by Chemical Technology department**

Parent Teachers meeting for Chemical Technology department was conducted in Seminar Hall – 3 on 28/03/2018 at 2:00 pm. The program was coordinated by Mr. N.P. Badgajar in which he presented an overall view of departmental activities to parents. The main points discussed were

- GTU Result summary of Sem-3<sup>rd</sup>, 5<sup>th</sup> & 7<sup>th</sup>: Taking initiative for arranging extra classes of AEM subject for the students who have failed.
- MSE Result summary of Sem 4<sup>th</sup>, 6<sup>th</sup> & 8<sup>th</sup>: Conducted RMSE for failed students for improvement of students' success rate.
- Discussed Attendance Record: SMS to all parents for absenteeism.
- Training & Placement: Need to improve the student success rate.
- PLI: Unique educational initiative in which senior students with good academic records teach junior students.
- Industrial Visit: To visit relevant industry to ensure exposure of students to the ongoing processes in various industries
- Expert Lecture: The experts from various domains are invited to the institute to deliver lectures to students.
- Pair Learning Project: To help students having backlogs. They must clear all their pending backlogs before they enter to the next sem.
- GTU 100 points activity: Students participate in extracurricular activities in institute/ Zonal/ national level and score marks as per the GTU circular regarding the scope of marks against each activity.
- NBA: Beneficial for continuous Quality Improvement. Discussed the Institute & Departmental Vision, Mission, PEO, PO's & CO's with parents.

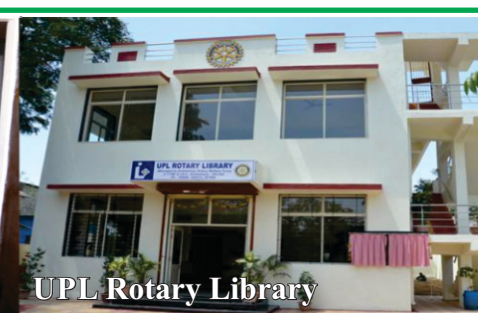

(Compiled & edited by Ms. Vinitha Vakkayil,  
Assistant Professor in Mathematics, Science &  
Humanities Department)

### **REPORT ON WORKSHOP ON ANALYTICAL AND INDUSTRIAL ASPECTS OF ENVIRONMENTAL ENGINEERING**

*Two days hands on workshop on “Analytical and Industrial aspects of Environmental Engineering” was organized by Department of Environmental Science & Technology on 5<sup>th</sup> and 6<sup>th</sup> April 2018 for students of Diploma Engineering from Government Engineering College, Bharuch. The workshop included lectures on Environmental aspects pertaining to Water, Air and Solid and Lab sessions on different analysis pertaining to Environmental Management. The students were allowed to perform the practical and take appropriate readings. An industrial visit was also included in the workshop. Total 32 students and two faculties actively interacted in the workshop and their feedback reflected their interests and their knowledge gain during the workshop. All the students were felicitated by a participation certificate. The workshop was successfully conducted under the leadership of MsPratibhaGautam, Assistant Professor in DEST.*

## **REPORT ON REVA FEST 2018**

### **ORGANISED BY SHROFF S R ROTARY INSTITUTE OF CHEMICAL TECHNOLOGY**

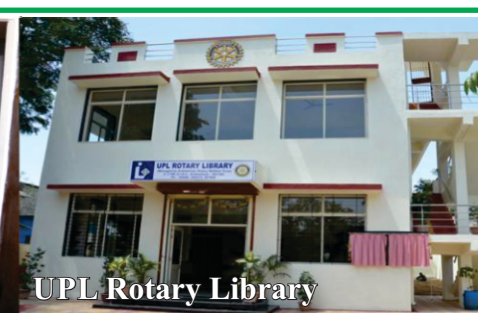

On the 3<sup>rd</sup> of April, all roads led to SRICT. The excitement among the students was palpable. It was time for 'REVA FEST 2K18!'. Although academics are important, it doesn't hurt once in a while to go out and have fun and discover new things, unfold the hidden talent and learn outside the classroom. This annual gathering gave us the opportunities to exactly do so. The mega event was inaugurated by Prof. (Dr.) Navin Sheth, Hon'ble Vice Chancellor of Gujarat Technological University as Chief Guest and Shri Kamlesh Udani, Executive Director (Technical & Production) of J B Chemicals & Pharmaceuticals Ltd as Guest of Honour. Reva Fest was a unique blend of Exhibition and cultural events and was based on the theme 'Heritage of India'. The red carpet welcome of the guests led to the inauguration of the mega event through a unique concept using a well type structure and 'charkha'. The puppet show was a mode of attraction along with different unique glimpses of Indian village and art and sculpture. Moreover, the exhibition took the visitors through a journey of infrastructure development of SRICT right from 2011. The cultural fest started with a blasting inauguration followed by a unique traditional and holistic dance for Aaradhyadevi. The entire event was distributed in Music, dance and Drama fest wherein the interlinking of these events was done by prerecorded commentary by a well-known back stage voice of 'Mahabharat' serial i.e. 'SAMAY'. Shivay, Garba, Rajasthani folk, Dashavataar, Mime, Patriotic dance, drama on superstitions etc were performed by around 200 students and was very well appreciated by the crowd with a youthful cheer of "Once more" every now and then. The shining academicians who were in the top list of GTU results were felicitated by Hon'ble VC. The best student of the year was also honoured by the guests. Honorable VC in his speech emphasized on bridge to success via strong efforts and he explained it with a very beautiful story printed in Reader's digest. Shri Kamlesh Udani also emphasized young technocrats to be a good human along with a good engineer. He tagged that Engineering is nothing but common sense and logical thinking. Mr Ashok Panjwani, Chairman ARES, Mr. Angiras Shukla, Hon. Secretary-ARES, Mr. Kishore Surti, Hon. Treasure, ARES, Mr. B. D. Dalwadi, Dr. P. N. Paramaswaran - Trustees of ARES, Mr. R. D. Mane, President of Rotary Club of Ankleshwar and members of Rotary Club of Ankleshwar etc graced the occasions. The event was organized at Ankleshwar Industries Association (AIA) hall in presence of huge gathering of students, parents, invited guests
