

MECHANICAL JUNKYARD

EVENT DEFINITION

- ❖ The event is an “on-spot design & fabrication” challenge where the teams will be tested on their ability to think outside the box and come up with solutions from the junk given to them. Junkyard is an event based on creativity, conceptual application, presence of mind, technical knowledge etc

RULES

- ❖ Only 3 or 4 participants per team will be there.
- ❖ The participants will be given a fixed amount of basic raw materials which appear to be waste in day to day life.

- ❖ Participants have to make a model using the materials provided with the use of their creativity, presence of mind and engineering skills.
- ❖ The model to be prepared will be disclosed at time of event.
- ❖ All participants should have to complete the given task within time limit.
- ❖ Criteria of winner will be described prior to competition.
- ❖ Use of materials other than provided to participation will lead to disqualification.
- ❖ Event co-ordinator's decision is considered final.
- ❖ Any wrong and aggressive behaviour will directly lead to disqualification.
- ❖ Event co-ordinator can change rules as per the situation.
- ❖ Team consisting of members from different colleges and branches can participate.
- ❖ Each team should be present at least 15 minutes before commencement of elimination round.
- ❖ Participation certificates will be provided to all the participants.
- ❖ Participants are suggested to remain update with the website.
